PUBLISHED **PRODUCT ENGINEERING** MONTHLY

Index to Volume XVIII

JANUARY to DECEMBER

★ 1947 ★

McGraw-Hill Publishing Company, Inc., 330 West 42nd St., New York 18, N. Y.

ALPHABETICAL INDEX

EDITORIALS

Expositions are being overdone....Jan. 79
Unionization of the engineering professions....Feb. 79
Women in engineering design....Mar. 79
Composite constructions present many possibilities....Apr. 79
Even mistakes can be profitable....May 79
Plan now to attend the show....June 79
Intangible costs often outweigh direct costs....July 79
Solving the problem of machining costs. Aug. 79
Integrating design and production progress....Sept. 79
The buncombe about engineers and politics....Oct. 79
Playing it safe is often dangerous....Nov. 79
Some are merely bricklayers....Dec. 79

—A—

A.c. adjustable speed drive (abstract)..Dec. 128
Acceleration of inertia loads with a varying torque....Dec. 102
Acrylic resins, obtaining brilliance with. May 147
Adhesives, industrial .... pt. I, Nov. 117, pt. II, Dec. 137
Airborne magnetic detector (abstract). Aug. 134
Air conditioner, room....Jan. 104
Aircraft electric motors....Jan. 86
Aircraft—electropult launches planes from small fields....Feb. 162
Aircraft-gyropilot makes landings safer. Mar. 148
Aircraft muffler....Feb. 157
Aircraft, Navy unveils transsonic....Apr. 161
Aircraft, relay design for....Dec. 118
Air ducts of nonmetallic materials....Oct. 138
Airplane cabin interior....Feb. 105
Aluminum components designed for repeated loads, spot-welded....Dec. 158
Aluminum die castings inclose self-charging radio....Jan. 95
Aluminum lap joints designed for repeated loads, spot-welding....Nov. 112
Aluminum parts, assembly by furnace and dip brazing methods....Feb. 115
Aluminum shingles, interlocking....Jan. 105
Aluminum shower base....Feb. 106
Aluminum-silicon alloys (abstract)....June 126
Aluminum surface hardening (abstract). July 133
America's needs and resources .... (special insert May)
Analysis of heat resistant paints....Dec. 85
Analysis of motor noise and how it can be minimized....Dec. 110
Analysis of turbine pumps....Oct. 163
Annular sections, chart for determining the section modulus of....Mar. 167
Anodizing of magnesium alloys....May 122
Application tables to guile in selection of materials..pt. I, Nov. 165, pt. II, Dec. 165
Applying electrified drives to conveyors..Oct. 84
Arc welding unit, portable inert gas metal....June 114
Assembly of aluminum parts by furnace and dip brazing methods....Feb. 115
Atmosphere generator, automatic....June 94
Atomic-electric power plant designed...Jan. 155
Automotive design, light metals dominate French....Feb. 81
Automotive-independent four-wheel suspension....Jan. 103

—B—

Babbitt alloys, lead base.... pt. I, May 118, pt. II, June 138
Ball and roller bearing seals....Apr. 103
Basic equations for fluid motion and pressure drop in pipes....May 85
Basic requirements of materials for induction hardening....May 110
Basic standard drafting practice guarantees correct interpretation....July 137
Beams, strength of ribbed....Dec. 122
Bearing seals, ball and roller....Apr. 103
Bearings, instrument (abstract)....Feb. 131
Bellows-type heat exchanger for compactness and efficiency....June 121
Bellows unit in control assemblies, typical applications of the....May 116
Belt conveyor adjustable for height and pitch, portable....Mar. 99
Belt-gear drive, dual....June 96
Beryllium copper formed parts—advantages of fixture heat-treatment....Feb. 118
Bicycle hub, generator and three-speed gear in....Feb. 106
Bimetal, use of thermostatic....Nov. 123
Bolts, strength and clamping force of..Dec. 130
Boxes with square and round corners, designs for sheet metal....pt. I, Feb. 122, pt. II, Mar. 122, pt. III, Apr. 148
Brake bands, forces and stresses in clutch and....May 152
Brass die castings (abstract)....May 129
Brazing and welding processes, temperature chart for soldering....Oct. 171
Brazing materials and vent locations, methods for placing....July 124
Brazing methods, assembly of aluminum parts by furnace and dip....Feb. 115
Brazing, methods for maintaining positions and dimensions of parts during....Aug. 120
Brazing of cast iron, silver....Oct. 128
Brinelling of ball and roller bearings (abstract)....Dec. 127

—C—

Calculator, largest in world....Feb. 160
Cam design and analysis for high speeds and torques....Mar. 84
Camera, Fastax motion picture....Feb. 158
Camera takes 200,000 pictures a second. May 155
Cardboard mock-ups....Jan. 120
Case histories in patent law.... No. 7, Jan. 164, No. 8, Apr. 158, No. 9, May 115, No. 10, July 123, No. 11, Aug. 27
Castings and weldings (abstract)....Mar. 132
Castings, malleable iron....June 110
Castings, three-dimensional inspection..Aug. 154
Cathode-ray compass (abstract)....Aug. 132
Cellulosics low temperature impact strength (abstract)....July 136
Centrifugal governor speed control for small motors....Aug. 138
Ceramic coatings, high temperature (abstract)....Nov. 135
Ceramic parts, designing small (abstract). July 131
Ceramic-to-metal seals, soldered....Dec. 154
Chain attachments, trolley conveyor...Dec. 116
Characteristics of silver and copper for use as electrical contacts....Nov. 104
Charpy and Izod testing .... pt. I, Oct. 106, pt. II, Nov. 159
Chart of symptoms, causes and remedies of trouble in oil hydraulic systems....Feb. 165
Charts for circular diaphragm design...Jan. 167
Chart for determining the section modulus of annular sections....Mar. 167
Charts for designing copper coils....June 163
"Chromising" process, German....Nov. 158
Chromium-vanadium carburizing steel (abstract)....Apr. 147
Circuits for motors may aid machine performance, special control....Aug. 106

Clamping force of bolts, strength and..Dec. 130
Climatic hangar for all-weather testing.Oct. 147
Clock, thermal .....Dec. 100
Clutch and brake bands, forces and stresses .....May 152
Clutch, power press.....Dec. 100
Coach-baggage car, aluminum.....July 104
Coal-burning gas turbine power plant...Aug. 152
Coating metals, lead, zinc, tin (abstract).Oct. 135
Coding tube allows multiple transmission.Dec. 151
Coils, charts for designing copper.....June 163
Coin changer, electrically operated....Mar. 92
Cold working of copper-aluminum alloy (abstract) .....June 129
Commercial research by universities threatens science and education.....June 81
Comment .....Sept. 174
Comment .....Oct. 156
Common industrial electroplates.....
pt. I, Mar. 139, pt. II, Apr. 155
Composite dimensioning speeds production and inspection .....Oct. 141
Compressor, fully-automatic two-stage..Feb. 104
Compressor, refrigerator.....Oct. 90
Concrete blocks automatically formed...Apr. 94
Condenser discharge reeets r.p.m.....Feb. 103
Cone type speed transmission, hard steels improve .....Mar. 95
Conic sections with machine tools, generation of the .....Aug. 162
Connector for gas outlets.....Mar. 101
Constant-velocity universal joints.....July 120
Continuous casting of alloys made possible by new process.....Dec. 148
Contour milling machine.....Nov. 99
Control panel, hydraulic .....Oct. 92
Control panel, hydraulic, air cooled....Oct. 99
Control systems for tandem motor operation .....July 167
Controlling speed of fractional hp. motors .....May 130
Conveyor system components, trolley....Dec. 116
Conveyors, applying electrified drives to.Oct. 84
Conveyors, trolley .....Feb. 124
Corrosion and abrasion, rubber linings protect steel against .....Jan. 142
Corrosion resistant plastic, high heat and .....Nov. 154
Crankshafts, results of comparative tests of (abstract) .....Nov. 135
Crimping tool .....Jan. 101
Cylinder diameter, optimum hydraulic pressure for minimum.....June 119
Comment .....Nov. 152

—D—

Damping characteristics of dashpots....Nov. 138
Dashpots, damping characteristics.....Nov. 138
Deflection of hollow shafts, torsional...Apr. 171
Comment .....Aug. 160
Design of parts for conditions of variable stress .....Jan. 118
Design patent protection.....Oct. 81
Design possibilities in the silver brazing of cast iron .....Oct. 128
Designing for economy of material, tooling and labor .....Jan. 132
Designs for sheet metal boxes with square and round corners....pt. I, Feb. 122, pt. II, Mar. 122, pt. III, Apr. 148
Development department, purpose and organization of a .....Apr. 81
Diamond die drilling method developed by Bureau of Standards.....July 153
Diaphragm control valves conform to preferred numbers .....Apr. 85
Diaphragm design, charts for circular..Jan. 167
Die castings, small zinc alloy.....Nov. 86
Dielectric heating .....Oct. 158
Dimensioning and toleraneing, recommended practices for .....Feb. 88
Dimensioning, composite .....Oct. 141
Dimensions and tolerances .....Jan. 160
Disposal unit, gas-fired.....Mar. 102
Dividing machine, automatic .....June 90
Doughnut gun .....Mar. 98
Dovetailer, automatic .....Aug. 96
Drafting practice guarantees correct interpretation, basic standard.....July 137
Dual fields in d.c. motor provide simple 8 to 1 speed control .....Aug. 166
Ductile titanium new material for industry .....May 89
Dynamic balancing machine.....Jan. 92

—E—

Earth mover, hydraulically controlled..Aug. 90
Economy of material, tooling and labor, designing for .....Jan. 132
ECPD raises professional standards of the engineer .....Nov. 144
Effect of rib proportions on beam strength Dec. 122
Effects of pressure cycling on physical properties of materials .....Aug. 81
Electrical analogies .....July 126
Electrical contact operation.....Feb. 107
Electrical contacts, silver and copper...Nov. 104
Electrical indicating instruments.....Jan. 123
Electrical, mechanical and fluid variable speed transmissions .....
pt. I, Oct. 126, pt. II, Nov. 128
Electric motors for aircraft.....Jan. 86
Electric switches, precision snap-acting....
pt. I, Feb. 135, pt. II, Mar. 112
Electrified drives to conveyors, applying.Oct. 84
Electroless plating on metals by chemical reduction .....Oct. 150
Electronic control, machine tool.....Nov. 103
Electronic counters (abstract).....Mar. 131
Electronic crystal clock .....May 141
Electronic drives (abstract).....Aug. 135
Electronic micrometer based on shielding principle .....Nov. 151
Electroplates, common industrial.....
pt. I, Mar. 139, pt. II, Apr. 155
Electroplating process produces better finish .....June 144
Electrostatic metal sorting.....May 93
Energy — voltage — capacitance relationship nomogram .....Sept. 179
Engine, air cooled diesel.....Mar. 88
Engine, air cooled diesel.....Apr. 101
Engine, air cooled, single cylinder.....May 100
Engine, hot air .....Oct. 102
Engine lathe with hydraulic control.....May 94
Engine, lightweight industrial.....Mar. 101
Engine, low hp. gasoline.....Jan. 104
Engine, marine .....May 100
Engine, world's largest reciprocating aircraft .....Jan. 152
Engineering and manufacturing standards .....Nov. 81
Examination of materials, supersonic....Oct. 113
Reference book sheet .....Oct. 169
Examples of various welding designs and techniques .....June 130
Experimental stress analysis.....July 172
External floating friction shoes.....Oct. 119
External friction blocks and shoes.....Dec. 134

—F—

Fastener, one-piece spring steel snap..Aug. 93
Fastener, quick-removable .....May 98
Fasteners cut assembly time.....July 96
Fatigue strength of steel parts.....Oct. 144
Ferrous base metals, electroplating.....
pt. I, Mar. 139, pt. II, Apr. 155
Fiberglas-plastic in compound curve shapes. Jan. 104
Finding new products to fill expanded plants .....July 85
Fine silver welded tubing.....June 160
Finishes for metal containers (abstract).Mar. 130
Finishes, proper surface preparations assure durable .....Mar. 153
Five theories of static failure explained and compared .....June 157
Flame-cut disk flywheels .....Nov. 141
Flexible control systems for tandem motor operation .....July 167
Flow between plates, friction loss and heat balance in viscous .....Aug. 146
Fluid flow friction factors for pipes, valves and fittings .....July 89
Comment .....Dec. 152
Fluid motion and pressure drop in pipes, basic equations for.....May 85
Flywheels, flame-cut disk.....Nov. 141
Forces and stresses in clutch and brake bands .....May 152
Forged parts, shaping of die (abstract).Nov. 130
Fork truck, articulated.....Dec. 92
Forming press, hydraulic.....Nov. 92
Four-wheel suspension for light car, independent .....Jan. 103
Freezer compartment, aluminum.....Aug. 104
Friction blocks and shoes, external....Dec. 134
Friction blocks and shoes, internal.....Mar. 133
Comment .....July 161
Friction factors for pipes, valves and fittings, fluid flow .....July 89
Comment .....Dec. 152
Friction loss and heat balance in viscous flow between plates .....Aug. 146
Friction shoes, external floating.....Oct. 119
Friction shoes, internal floating.....July 106

—G—

Gaging, electro-mechanical .....July 102
Garden tractor .....Mar. 100
Gas compressors (abstract).....Aug. 136
Gas heating, high temperature.....Apr. 99
Gas turbines becoming lighter.....Apr. 159
Gasket, factors that affect choosing a (abstract) .....Feb. 134
Gear trains and drives, zero-backlash arrangements for .....July 150
Gear trains, vector analysis of epicyclic.Aug. 171
Gears, tooth deflection and scuffing in design of highly loaded .....Feb. 141
Generation of the conic sections with machine tools .....Aug. 162
Generator, small electric.....Dec. 98
Glass fiber-reinforced plastics—properties and applications .....Mar. 160
Graph for determining lug shear-out distance .....May 157

—H—

Hand tool, electric.....Oct. 96
Hardness and hardenability in carbon and alloy steels .....July 141
Hardness testing with a ball trace (abstract) .....Dec. 124
Heat exchanger for compactness and efficiency, bellows-type .....June 121
Heat gun .....May 101
Heat sealing thermoplastics (abstract).Mar. 130
Heater, gas room.....Feb. 104
Heater, portable .....Jan. 106
Heater, two stage steam.....July 99
Heating, dielectric .....Oct. 158
Heating plant, electric home.....May 96
Heating unit, domestic.....Apr. 102
Helicopter, twin engined.....Dec. 88
High heat and corrosion resistant plastic.Nov. 154
High temperature alloys tested at super-high-speed .....Oct. 154
Hoist lowering system, a.c. (abstract).July 134
How low temperature treatments affect properties of steels.....Dec. 81
How the industrial designer works with the engineer .....May 81
Hydraulic analyzer .....Apr. 96
Hydraulic brake fluid standard, SAE....May 143
Hydraulic control panel, air cooled....Oct. 99
Hydraulic control, remote.....Nov. 136
Hydraulic coupling applied to electric motor .....Mar. 96
Hydraulic-electric system operates auto windows, seat and top.....June 100
Hydraulic fluids, specifying.....Oct. 122
Hydraulic gaging units check frame alignment .....Jan. 96
Hydraulic O-ring packing for sealing cylinders and pistons .....July 163
Hydraulic pressure for minimum cylinder diameter, optimum .....June 119
Comment .....Nov. 152
Hydraulic systems, chart of symptoms, causes, and remedies of trouble in oil .....Feb. 165
Hydraulic systems, lightweight high pressure (abstract) .....Oct. 133
Hydraulic tailgate elevator.....June 103

—I—

Ice calorimeter in high temperature research .....Oct. 155
Ignition developments described, German. Oct. 149
Ignition for gas ranges, automatic.....June 104
Important considerations in Charpy and Izod testing....pt. I, Oct. 106, pt. II, Nov. 159
Improved engineering properties of parts made from iron powders.....Aug. 115
Improved mechanical test methods for better plastics design .....Jan. 113
Induction hardening, basic requirements of materials for .....May 110
Industrial adhesives .....
pt. I, Nov. 117, pt. II, Dec. 137
Industrial designer works with the engineer, how the .....May 81
Industrial gun breaks up clinker rings...Jan. 103
Industrial heating, microwaves for (abstract) .....Jan. 137
Inertia loads with a varying torque, acceleration of .....Dec. 102
Injection molding machine .....Dec. 96
Instrument bearings (abstract).....Feb. 131
Instruments, electrical indicating.....Jan. 123
Instruments aid landing field safety...Dec. 143
Integral hp. single-phase motors.....Apr. 150
Internal floating friction shoes.....July 106
Internal friction blocks and shoes—analyses and applications .....Mar. 133
Comment .....July 161
Internal pressure chart for round stainless steel tubing .....Sept. 177
Involute spline standard, ASA revision..May 142
Iron and steel review.....June 117, July 112, Aug. 114, Sept. 164, Oct. 12, Nov. 111, Dec. 108
Iron powders, improved engineering properties of parts made from.....Aug. 115
Iron used in electron tube components..Oct. 89
Izod testing, Charpy and.....
pt. I, Oct. 106, pt. II, Nov. 159

—K-L—

Knitting machine, warp.....May 90
Laminar to turbulent flow transition studied .....Sept. 167
Lawnmower, sheet metal.....Nov. 102
Lead base babbitt alloys.....
pt. I, May 118, pt. II, June 138
Lift truck, electric.....May 102
Light metals dominate French automotive design .....Feb. 81
Limits and fits standards by ASA.....Oct. 154
Low pressure molding (abstract).....Dec. 126
Lubrication of bearings (abstract).....May 125
Lug shear-out distance graph.....May 157
Luminous materials .....July 144

—M—

1947 Machine tool show .....
(special section Sept.)
Magnesium alloys, anodizing of.....May 122
Magnesium copper sulphide rectifiers...June 84
Magnesium die casting for radio chassis..Mar. 99
Magnesium furniture .....Jan. 105
Magnesium hand truck .....Mar. 102
Magnetic detector locates flaws in ferrous metals, recording .....Apr. 110
Magnetic template tracing increases accuracy of shape cutting .....Feb. 92
Magnet wire properties, comparison of (abstract) .....Apr. 145
Magnets, a.c. (abstract).....June 126
Malleable iron castings .....June 110

Manometers, low pressure (abstract)...Mar. 127
Measurement system claimed to aid designer ....June 142
Measuring wear, Bureau of Standards develops new method ....Sept. 172
Mechanical design, some things to check to assure good ....Mar. 156
Medical instrument, gasometer ....Oct. 100
Melamine resin products....Oct. 140
Metal stampings in small lots at reasonable fabrication cost ....June 105
Metal surface treatments prior to painting ....Aug. 128
Meter, positive displacement (abstract).Feb. 130
Methods for maintaining positions and dimensions of parts during brazing ....Aug. 120
Methods for placing brazing materials, and vent locations ....July 124
Microscopes, phase and polarnet....June 159
Microwave power generator (abstract).Mar. 129
Microwaves for industrial heating (abstract) ....Jan. 137
Mirrors, German semi-transparent....Aug. 111
Mock-ups, cardboard ....Jan. 120
Moment of inertia by suspension, monogram for polar ....July 177
Motor, axial air-gap....Oct. 96
Motor, hydraulic coupling applied to electric ....Mar. 96
Motor operation, flexible control systems for tandem ....July 167
Motor standards revisions, NEMA....Sept. 173
Motors, controlling speed of fractional hp. ....May 130
Motors for aircraft, electric ....Jan. 86
Motors, integral hp. single-phase....Apr. 150
Motors use silicones, totally-inclosed high temperature (abstract) ....Nov. 134

—N—

Nailable flooring, spaced channels form..Oct. 101
Neon tube is recessed in casting....Nov. 94
New dimension standards for fractional hp. motors ....Jan. 91
Noise and how it can be minimized, motor ....Dec. 110
Nomogram for energy—voltage—capacitance relationship ....Sept. 179
Nomogram for polar moment of inertia by suspension ....July 177
Nonferrous metals review ....
Jan. 112, Feb. 114, Mar. 110, Apr. 108, May 108, June 116, July 113, Aug. 113, Sept. 163, Oct. 111, Nov. 109, Dec. 107
Nylon, elastic (abstract)....Feb. 132

—O—

Obtaining brilliance with acrylic resins..May 147
Optimum hydraulic pressure for minimum cylinder diameter ....June 119
Comment ....Nov. 152
Organization of a development department, purpose and ....Apr. 81
Oxyacetylene pressure welding as it affects design ....Mar. 117

—P—

1948 Packard ....Nov. 90
Packing for sealing cylinders and pistons, hydraulic O-ring ....July 163
Painting, treatments for metal surfaces prior to ....Aug. 128
Paints, analysis of heat resistant....Dec. 85
Paints, anti-fouling (abstract)....Feb. 133
Paper dictation records ....Feb. 106
Particle accelerators ....Jan. 149
Patent law case histories ....
No. 7, Jan. 164, No. 8, Apr. 158, No. 9, May 115, No. 10, July 123, No. 11, Aug. 127
Patent office publishes new trademark rules Sept. 166
Patent protection, design ....Oct. 81
Pebble heat exchanger for high temperature gas heating ....Apr. 99
Percolator handle design ....Feb. 105
Photoelectric cell, lead sulphide....Mar. 100
Photos developed, projected in 15 sec...Feb. 154
Pipe unions made from stampings....Jan. 102
Plant devoted to laminating plastics....Nov. 150
Plastic bonded light alloys (abstract).Mar. 128
Plastic, high heat and corrosion resistant Nov. 154
Plastic insulation, weathering (abstract) Feb. 132
Plastic-sealed thermostats in electric comforter ....May 99
Plastics and rubber....(special section April)
Polytetrafluoroethylene ....Apr. 2
Modified styrenes ....Apr. 4
Polyethylene ....Apr. 6
Vinyl plastics ....Apr. 7
Protective coatings ....Apr. 9
Plastics-synthetic rubber combinations Apr. 11
Synthetic rubber ....Apr. 13
Nylon ....Apr. 18
Silicones ....Apr. 20
Cellulosic plastics ....Apr. 22
Thermoplastic laminates ....Apr. 24
Low pressure molding and laminating Apr. 26
Honeycomb-sandwich structures....Apr. 28
New techniques in plastics....Apr. 30
Plastics assembly (abstract)....Mar. 128
Plastics design, improved mechanical test methods for better....Jan. 113
Plastics, glass fiber-reinforced....Mar. 160
Plastics review ....
Jan. 111, Feb. 113, Mar. 109, Apr. 107, May 107, June 115, July 111, Aug. 112, Sept. 162, Oct. 110, Nov. 108, Dec. 106
Plastics show ....June 149
Pneumatic fatigue testing....Feb. 98
Pneumatic hammer has rotary valve controls ....Nov. 94
Popular types of steels....Jan. 81
Porcelains take sustained load, high temperature ....July 157
Potentiometer gives precise readings, German Aug. 169
Powering industrial machinery, useful transformer connections for....Mar. 103
Powder metallurgy report, German....Nov. 116
Precision snap-acting switches ....
pt. I, Feb. 135, pt. II, Mar. 112
Pressure chart for round stainless steel tubing internal ....Sept. 177
Pressure cycling effects on physical properties of materials ....Aug. 81
Pressure-welding stainless steel rings (abstract) ....Apr. 147
Professional advantages offered by technical societies ....Mar. 81
Projection welding for roller skate assembly July 95
Projection welding of low carbon and stainless steel sheet ....Mar. 124
Proper surface preparations assure durable finishes ....Mar. 153
Pump has sliding displacement chambers Oct. 104
Pump, radial piston ....Dec. 95
Pump, self-priming ....July 100
Purpose and organization of a development department ....Apr. 81
Pyrometer for gas turbines and jet engines May 140

—R—

Radio built of basic subassemblies....Dec. 146
Railroad car design, refrigerator....Apr. 90
Railroad sound system....Oct. 93
Recommended practices for dimensioning and tolerancing ....Feb. 88
Recording magnetic detector locates flaws in ferrous metals ....Apr. 110
Rectifiers, magnesium copper sulphide...June 84
Refrigerator compressor ....Oct. 90
Refrigerator, German absorption type..Oct. 146
Relay design for compactness....Dec. 118
Remote hydraulic control ....Nov. 136
Research bringing quieter aircraft....May 135
Research by universites threatens science and education, commercial....June 81
Comment ....Sept. 174
Comment ....Oct. 156
Research, industrial (abstract)....Aug. 131
Research in small companies....May 134
Research in water-cooled gas turbines (abstract) ....May 127
Resins, low pressure (abstract)....June 125
Roller bearing seals, ball and....Apr. 103
Rotor-impeller makes simple pump, combined Mar. 91
Rotors clean compressed air through centrifugal force ....June 97
Rubber and plastics....(special section April)
Polytetrafluoroethylene ....Apr. 2
Modified styrenes ....Apr. 4
Polyethylene ....Apr. 6
Vinyl plastics ....Apr. 7
Protective coatings ....Apr. 9
Plastics-synthetic rubber combinations Apr. 11
Synthetic rubber ....Apr. 13
Nylon ....Apr. 18
Silicones ....Apr. 20
Cellulosic plastics ....Apr. 22
Thermoplastic laminates ....Apr. 24
Low pressure molding and laminating Apr. 26
Honeycomb-sandwich structures ...Apr. 28
New techniques in plastics ....Apr. 30
Rubber linings protect steel against corrosion and abrasion ....Jan. 142
Rubber, silicone ....Feb. 146

—S—

Scale diagram for relations of thread dimensions ....July 175
Seals, ball and roller bearing....Apr. 103
Seals, soldered ceramic-to-metal....Dec. 154
Section modulus of annular sections...Mar. 167
Selection of materials, application tables to guide in the ....
pt. I, Nov. 165, pt. II, Dec. 165
Servomechanism, lightweight ....Aug. 102
Servomechanisms for optimum overall performance, stabilizing ....June 132
Shafts, torsional deflection of hollow...Apr. 171
Comment ....Aug. 160
Shaping of die forged parts (abstract)..Nov. 130
Sheet metal stairs....Jan. 106
Shot peening other than for fatigue durability Aug. 122
Silicone rubber—properties and applications Feb. 146
Silver and copper for use as electrical contacts ....Nov. 104
Silver brazing of cast iron ....Oct. 128
Small zinc alloy die castings....Nov. 86
Soldered ceramic-to-metal seals....Dec. 154
Soldering, brazing and welding processes, temperature chart for....Oct. 171
Some design considerations for electrical contact operation ....Feb. 107
Some simple electrical analogies ....July 126
Some things to check to assure good mechanical design ....Mar. 156
Special control circuits for motors may aid machine performance ....Aug. 106
Specifying hydraulic fluids....Oct. 122
Spectroscopes fingerprint materials ....Feb. 153
Speed control, dual fields in d.c. motor provide simple 8 to 1....Aug. 166
Speed control for small motors, centrifugal governor ....Aug. 138
Speed control of fractional hp. motors..May 130
Speed gear regulated through variable throw crank ....Aug. 105
Speed transmissions, electrical, mechanical and fluid....pt. I, Oct. 126, pt. II, Nov. 128
Speeds and torques, cam design and analysis for high ....Mar. 84
Split ball bearings cut assembly time...Oct. 96
Spot-welded aluminum components designed for repeated loads ....Dec. 158
Spot-welding aluminum lap joints designed for repeated loads ....Nov. 112
Springs, stainless steel....
pt. I, May 103, pt. II, June 153
Stabilizing servomechanisms for optimum overall performance ....June 132
Stainless steels for springs ....
pt. I, May 103, pt. II, June 153
Stamped wiring for economical production Sept. 168
Stampings in small lots at reasonable fabrication cost, metal....June 105
Standards, engineering and manufacturing Nov. 81
Standards for fractional hp. motors, new dimension ....Jan. 91
Standards for spark plugs urged by SAE committee ....Apr. 160
Standards, fractional hp. motor (abstract) Jan. 140
Standardization of automotive drafting practice, SAE plans....Nov. 146
Static failure explained and compared, five theories of ....June 157
Steel casting design details affect quality of product ....Aug. 86
Steel for tubular products (abstract)...Oct. 137
Steel parts, fatigue strength of....Oct. 144
Steels, how low temperature treatments affect properties of ....Dec. 81
Steels, popular types ....Jan. 81
Strain gages for rapid changes, resistance June 156
Strain measuring devices and their range of utility ....Jan. 107
Strength and clamping force of bolts...Dec. 130
Strength of ribbed beams....Dec. 122
Supersonic examination of materials....Oct. 113
Reference book sheet....Oct. 169
Supersonic waves, water channel technique simulates ....Oct. 125
Surface grinder ....May 101
Surface preparations assure durable finishes, proper ....Mar. 153
Surface roughness instrument....Nov. 100
Swiss power unit gives high turbine efficiency Mar. 145
Switch, motor control....Dec. 98
Switches, precision snap-acting ....
pt. I, Feb. 135, pt. II, Mar. 112
Synthetic lubricating oils developed....Nov. 162
Synthetic rubber in tires (abstract)...Mar. 131

—T-U—

Tap flute grinder ....June 98
Technical societies, professional advantages offered by ....Mar. 81
Telescoping lift fork truck....Feb. 104
Temper brittleness in steel....Nov. 150
Temper designation for aluminum and its alloys ....Dec. 153
Temperature chart for soldering, brazing and welding processes ....Oct. 171
Temperature treatments affect properties of steels, how low....Dec. 81
Test methods for better plastics design, improved mechanical ....Jan. 113
Testing bolts for strength and ductility (abstract) ....Mar. 129
Thermometer element design....Apr. 98
Thermoplastic laminates (abstract)....Oct. 134
Thread dimensions, scale diagram for relations of ....July 175
Threads made by stamping process....Feb. 97
Tin coatings on mild steel (abstract)..Dec. 126
Tin-free solder ....Oct. 121
Tire carrier ....Jan. 105
Titanium new material for industry, ductile May 89
Tolerances, dimensions and....Jan. 160
Tolerancing, recommended practices for dimensioning and ....Feb. 88
Tone stylus ....Nov. 99
Tooth deflection and scuffling in design of highly loaded gears ....Feb. 141
Torque, acceleration of inertia loads with a varying ....Dec. 102
Torsional deflection of hollow shafts....Apr. 171
Comment ....Aug. 160
Towing tractor ....Mar. 102
Tracing head, electronically controlled..June 102
Trailer wheel, continuous web....Mar. 100

Train of tomorrow....Aug. 98
Transformer connections for powering industrial machinery....Mar. 103
Transmission, hard steels improve cone type speed....Mar. 95
Treatments for metal surfaces prior to painting....Aug. 128
Trolley conveyor system components..Dec. 116
Trolley conveyors—design and application factors....Feb. 124
Truck refrigeration system....Jan. 98
Truck suspension....Oct. 105
Turbine pumps, analysis of....Oct. 163
Turn milling machine....Oct. 98
Twin engine power plant....Jan. 100
Twister, 2-for-1 (abstract)....May 128
Types of strain measuring devices and their range of utility....Jan. 107
Typical applications of the bellows unit in control assemblies....May 116
Universal joints, constant-velocity....July 120
Urea and melamine resin products....Aug. 140
Useful transformer connections for powering industrial machinery....Mar. 103
Use of thermostatic bimetal....Nov. 123
Uses of shot peening other than for fatigue durability....Aug. 122

— V-Z —

Vacuum cleaner, bagless....May 102
Vacuum tubes reduce oscilloscope size, miniature....Mar. 97
Valve grinder, automatic....Nov. 100
Valves conform to preferred numbers, diaphragm control....Apr. 85
Vanadium in gray iron castings (abstract) Mar. 132
Variable speed transmission, radial pump Oct. 94
Vector analysis of epicyclic gear trains..Aug. 171
Vehicle, foreign automotive....Dec. 100
Vibration exciter and calibrator, electro-magnetic....July 92
Vibration testing technique....July 115
Washer, home squeeze action....Feb. 100
Washing machine, automatic....Nov. 96
Welded steel construction for large motors June 93
Welded steel tubing improves truck body construction....Feb. 99
Welder designed for production line use, spot....Apr. 100
Welder, self-propelled arc....Mar. 101
Welder with arc booster....May 101
Welding as it affects design, oxyacetylene pressure....Mar. 117
Welding designs and techniques....June 130
Welding of low carbon and stainless steel sheet, projection....Mar. 124
Welding processes, temperature chart for soldering, brazing and....Oct. 171
Wheels, castored....Aug. 95
Work table hydraulically positioned....Mar. 94
Welding tools (abstract)....Oct. 136
Zero backlash arrangements for gear trains and drives....July 150
Zinc alloy die castings, small....Nov. 86

CLASSIFIED INDEX

DESIGN ANALYSIS AND CALCULATIONS

Acceleration of inertia loads with a varying torque....Dec. 102
Analysis of motor noise and how it can be minimized....Dec. 110
Analysis of turbine pumps....Oct. 163
Assembly of aluminum parts by furnace and dip brazing methods....Feb. 115
Ball and roller bearing seals....Apr. 103
Basic equations for fluid motion and pressure drop in pipes....May 85
Bellows-type heat exchanger for compactness and efficiency....June 121
Beryllium copper formed parts—advantages of fixture heat-treatment....Feb. 118
Cam design and analysis for high speeds and torques....Mar. 84
Cardboard mock-ups....Jan. 120
Characteristics of silver and copper for use as electrical contacts....Nov. 104
Chart for determining the section modulus of annular sections....Mar. 167
Constant-velocity universal joints....July 120
Damping characteristics of dashpots...Nov. 138
Diaphragm control valves conform to preferred numbers....Apr. 85
Dielectric heating....Oct. 158
Dimensioning and toleracing, recommended practices....Feb. 88
Dimensions and tolerances....Jan. 160
Electrical contact operation....Feb. 107
External floating friction shoes....Oct. 119
External friction blocks and shoes....Dec. 134
Fatigue strength of steel parts....Oct. 144
Five theories of static failure explained and compared....June 157
Flame-cut disk flywheels....Nov. 141
Forces and stresses in clutch and brake bands....May 152
Friction loss and heat balance in viscous flow between plates....Aug. 146
Generation of the conic sections with machine tools....Aug. 162
Glass fiber-reinforced plastics....Mar. 160
Graph for determining lug shear-out distance May 157
High heat and corrosion resistant plastic Nov. 154
Hydraulic analyzer....Apr. 96
Internal floating friction shoes....July 106
Internal friction blocks and shoes....Mar. 133
Comment....July 161
Internal pressure chart for round stainless steel tubing....Sept. 177
Magnet wire properties, comparison of (abstract)....Apr. 145
Malleable iron castings....June 110
Metal stampings in small lots at reasonable fabrication cost....June 105
Obtaining brilliance with acrylic resins..May 147
Optimum hydraulic pressure for minimum cylinder diameter....June 119
Comment....Nov. 152
Oxyacetylene pressure welding as it affects design....Mar. 117
Pneumatic fatigue testing....Feb. 98
Projection welding of low carbon and stainless steel sheet....Mar. 124
Relay design for compactness....Dec. 118
Remote hydraulic control....Nov. 136
Silicone rubber....Feb. 146
Silver brazing of cast iron....Oct. 128
Soldered ceramic-to-metal seals....Dec. 154
Some things to check to assure good mechanical design....Mar. 156
Spot-welding aluminum lap joints designed for repeated loads....Nov. 112
Stabilizing servomechanisms for optimum overall performance....June 132
Stainless steels for springs pt. I, May 103, pt. II, June 153
Steel casting design details affect quality of product....Aug. 86
Strength and clamping force of bolts...Dec. 130
Strength of ribbed beams....Dec. 122
Tooth deflection and scuffing in design of highly loaded gears....Feb. 141
Torsional deflection of hollow shafts....Apr. 171
Comment....Aug. 160
Trolley conveyors....Feb. 124
Use of thermostatic bimetal....Nov. 123
Vector analysis of epicyclic gear trains..Aug. 171
Vibration testing technique and its use in improving designs....July 115
Zero-backlash arrangements for gear trains and drives....July 150

ELECTRIC PARTS MOTORS AND CONTROLS

A.C. adjustable speed drive (abstract)..Dec. 128
Applying electrified drives to conveyors..Oct. 84
Axial air-gap motor....Oct. 96
Centrifugal governor speed control for small motors....Aug. 138
Characteristics of silver and copper for use as electrical contacts....Nov. 104
Charts for designing copper coils....June 163
Concrete blocks automatically formed..Apr. 94
Controlling speed of fractional hp. motors May 130
Dual fields in d.c. motor provide simple 8 to 1 speed control....Aug. 166
Electrical contact operation....Feb. 107
Electrical, mechanical and fluid variable speed transmissions pt. I, Oct. 126, pt. II, Nov. 128
Electric home heating plant....May 96
Electric motors for aircraft....Jan. 86
Flexible control systems for tandem motor operation....July 167
Fork truck, articulated....Dec. 92
Generator, small electric....Dec. 98
Hoist lowering system, a.c. (abstract)..July 134
Hydraulic coupling applied to electric motor Mar. 96
Hydraulic-electric system operates auto windows, seat and top....June 100
Injection molding machine....Dec. 96
Integral hp. single-phase motors....Apr. 150
1947 Machine tool show (special section Sept.)
Magnesium copper sulphide rectifiers..June 84
Magnet wire properties, comparison of (abstract)....Apr. 145
Magnets, a.c. (abstract)....June 126
Manometers, low pressure (abstract)..Mar. 127
Motor standards, fractional hp. (abstract) Jan. 140
Motors use silicones, totally-inclosed high temperature (abstract)....Nov. 134
New dimension standards for fractional hp. motors....Jan. 91
Plastic-sealed thermostats in electric comforter....May 99
Precision snap-acting switches pt. I, Feb. 135, pt. II, Mar. 112
Recording magnetic detector locates flaws in ferrous metals....Apr. 110
Relay design for compactness....Dec. 118
Rotor-impeller makes simple pump....Mar. 91
Servomechanism, lightweight....Aug. 102
Some simple electrical analogies....July 126
Special control circuits for motors may aid machine performance....Aug. 106
Train of tomorrow....Aug. 98
Twister, 2-for-1 (abstract)....May 128
Useful transformer connections for powering industrial machinery....Mar. 103
Use of thermostatic bimetal....Nov. 123
Washing machine, automatic....Nov. 96

ELECTRONIC UNITS AND CIRCUITS

Cathode-ray compass (abstract)....Aug. 132
Condenser discharge reflects r.p.m....Feb. 103
Controlling speed of fractional hp. motors May 130
Dielectric heating....Oct. 158
Electrically operated coin changer....Mar. 92
Electronic control, machine tool....Nov. 103
Electronic counters (abstract)....Mar. 131
Electronic crystal clock....May 141
Electronic drives (abstract)....Aug. 135
Electronically controlled tracing head..June 102
Electrostatic metal sorting....May 93
Gaging, electro-mechanical....July 102
1947 Machine tool show (special section Sept.)
Magnesium copper sulphide rectifiers...June 84
Microwaves for industrial heating (abstract) Jan. 137
Self-synchronous transmitters electrically couple machine tools....Jan. 92
Servomechanism, lightweight....Aug. 102
Stabilizing servomechanisms for optimum overall performance....June 132
Tone stylus....Nov. 99
Vibration exciter and calibrator, electro-magnetic....July 92

ENGINEERING DEPARTMENT ORGANIZATION

Basic standard drafting practice guarantees correct interpretation....July 137
Composite dimensioning speeds production and inspection....Oct. 141
Design patent protection....Oct. 81
Engineering and manufacturing standards Nov. 81
How the industrial designer works with the engineer....May 81
Patent office trademark rules....Sept. 166
Patent law case histories No. 7, Jan. 164, No. 8, Apr. 158, No. 9, May 115, No. 10, July 123, No. 11, Aug. 127
Purpose and organization of a development department....Apr. 81

HYDRAULIC AND PNEUMATIC CONTROLS

Analysis of turbine pumps....Oct. 163
Basic equations for fluid motion and pressure drop in pipes....May 85
Chart of symptoms, causes and remedies of trouble in oil hydraulic systems....Feb. 165
Concrete blocks automatically formed..Apr. 94
Control panel, hydraulic....Oct. 92
Damping characteristics of dashpots...Nov. 138
Diaphragm control valves conform to preferred numbers....Apr. 85
Earth mover, hydraulically controlled..Aug. 90
Effects of pressure cycling on physical properties of materials....Aug. 81
Electrical, mechanical and fluid variable speed transmissions pt. I, Oct. 126, pt. II, Nov. 128
Engine lathe with hydraulic control....May 94
Fluid flow friction factors for pipes, valves and fittings....July 89
Comment....Dec. 152

Fork truck, articulated....Dec. 92
Forming press, hydraulic....Nov. 92
Friction loss and heat balance in viscous flow between plates....Aug. 146
Hydraulic analyzer....Apr. 96
Hydraulic coupling applied to electric motor....Mar. 96
Hydraulic-electric system operates auto windows, seat and top....June 100
Hydraulic gaging units check frame alignment....Jan. 96
Hydraulic O-ring packing for sealing cylinders and pistons....July 163
Hydraulic systems, lightweight high pressure (abstract)....Oct. 133
Hydraulic tailgate elevator....June 103
Ignition for gas ranges, automatic....June 104
Injection molding machine....Dec. 96
Manometers, low pressure (abstract)....Mar. 127
Medical instrument, gasometer....Oct. 100
Meter, positive displacement (abstract)....Feb. 130
1947 Machine tool show....(special section Sept.)
Optimum hydraulic pressure for minimum cylinder diameter....June 119
Comment....Nov. 152
Pneumatic hammer has rotary valve controls....Nov. 94
Pump has sliding displacement chambers....Oct. 104
Pump, radial piston....Dec. 95
Remote hydraulic control....Nov. 136
Self-synchronous transmitters electrically couple machine tools....Jan. 92
Specifying hydraulic fluid....Oct. 122
Squeeze action by hydraulic pressure simplifies washer design....Feb. 100
Surface roughness instrument....Nov. 100
Variable speed transmission, radial pump....Oct. 94
Work table hydraulically positioned....Mar. 94

LUBRICATION

Ball and roller bearing seals....Apr. 103
Fork truck, articulated....Dec. 92
Lubrication of bearings (abstract)....May 125
1947 Machine tool show....(special section Sept.)
Synthetic lubricating oils developed....Nov. 162

MATERIALS—METAL
Ferrous

Application tables to guide in the selection of materials....pt. I, Nov. 165, pt. II, Dec. 165
Basic requirements of materials for induction hardening....May 110
Clutch, power press....Dec. 100
Designing for economy of material, tooling and labor....Jan. 132
Fatigue strength of steel parts....Oct. 144
Ferrous base metals, electroplating....pt. I, Mar. 139, pt. II, Apr. 155
Fork truck, articulated....Dec. 92
Generator, small electric....Dec. 98
Hardness and hardenability in carbon and alloy steels....July 141
How low temperature treatments affect properties of steels....Dec. 81
Improved engineering properties of parts made from iron powders....Aug. 115
Injection molding machine....Dec. 96
Iron and steel review....June 117, July 112, Aug. 114, Sept. 164, Oct. 112, Nov. 111, Dec. 108
1947 Machine tool show....(special section Sept.)
Malleable iron castings....June 110
Popular types of steels....Jan. 81
Projection welding of low carbon and stainless steel sheet....Mar. 124
Pump, radial piston....Dec. 95
Recording magnetic detector locates flaws in ferrous metals....Apr. 110
Silver brazing of cast iron....Oct. 128
Stainless steels for springs....pt. I, May 103, pt. II, June 153
Steel casting design details affect quality of product....Aug. 86
Supersonic examination of materials....Oct. 113
Reference book sheet....Oct. 169
Switch, motor control....Dec. 98

MATERIALS—METAL
Nonferrous

Anodizing of magnesium alloys....May 122
Application tables to guide in the selection of materials....pt. I, Nov. 165, pt. II, Dec. 165
Assembly of aluminum parts by furnace and dip brazing methods....Feb. 115
Beryllium copper formed parts—advantages of fixture heat-treatment....Feb. 118
Characteristics of silver and copper for use as electrical contacts....Nov. 104
Coach-baggage car, aluminum....July 104
Coating metals, lead, zinc, tin (abstract)....Oct. 135
Designing for economy of material, tooling and labor....Jan. 132
Ductile titanium new material for industry....May 89
Electrical contact operation....Feb. 107
Fork truck, articulated....Dec. 92
Freezer compartment, aluminum....Aug. 104
Generator, small electric....Dec. 98
Industrial adhesives....pt. I, Nov. 117, pt. II, Dec. 137
Lead base babbitt alloys....pt. I, May 118, pt. II, June 138
Light metals dominate French automotive design....Feb. 81
Lightweight convertible refrigerator cars....Apr. 90
1947 Machine tool show....(special section Sept.)
Magnesium copper sulphide rectifiers....June 84
Magnet wire properties, comparison of (abstract)....Apr. 145
Nickel alloys form multihelix thermometer element....Apr. 98
Nonferrous metals review....Jan. 112, Feb. 114, Mar. 110, Apr. 108, May 108, June 116, July 113, Aug. 113, Sept. 163, Oct. 111, Nov. 109, Dec. 107
Nonferrous base metals, electroplating....pt. I, Mar. 139, pt. II, Apr. 155
Pump, radial piston....Dec. 95
Silver brazing of cast iron....Oct. 128
Small zinc alloy die castings....Nov. 86
Soldered ceramic-to-metal seals....Dec. 154
Spot-welded aluminum components designed for repeated loads....Dec. 158
Spot-welding aluminum lap joints designed for repeated loads....Nov. 112
Supersonic examination of materials....Oct. 113
Reference book sheet....Oct. 169
Switch, motor control....Dec. 98
Use of thermostatic bimetal....Nov. 123

MATERIALS—NON-METAL
Miscellaneous

Air ducts of nonmetallic materials....Oct. 138
Ceramic parts, designing small (abstract)....July 131
Glass fiber-reinforced plastics....Mar. 160
1947 Machine tool show....(special section Sept.)
Porcelains take sustained load, high temperature....July 157

MATERIALS—NON-METAL
Plastics and Rubber

Analysis of heat resistant paints....Dec. 85
Generator, small electric....Dec. 98
Glass fiber-reinforced plastings....Mar. 160
High heat and corrosion resistant plastic....Nov. 154
Improved mechanical test methods for better plastics design....Jan. 113
Industrial adhesives....pt. I, Nov. 117, pt. II, Dec. 137
1947 Machine tool show....(special section Sept.)
Motors use silicones, totally-inclosed high temperature (abstract)....Nov. 134
Obtaining brilliance with acrylic resins....May 147
Plant devoted to laminating plastics....Nov. 150
Plastic-sealed thermostats in electric comforter....May 99
Plastics and rubber....(special section April)
Polytetrafluoroethylene....Apr. 2
Modified styrenes....Apr. 4
Polyethylene....Apr. 6
Vinyl plastics....Apr. 7
Protective coatings....Apr. 9
Plastics-synthetic rubber combinations....Apr. 11
Synthetic rubber....Apr. 13
Nylon....Apr. 18
Silicones....Apr. 20
Cellulosic plastics....Apr. 22
Thermoplastic laminates....Apr. 24
Low pressure molding and laminating....Apr. 26
Honeycomb-sandwich structures....Apr. 28
New techniques in plastics....Apr. 30
Plastics review....Jan. 111, Feb. 113, Mar. 109, Apr. 107, May 107, June 115, July 111, Aug. 112, Sept. 162, Oct. 110, Nov. 108, Dec. 106
Plastics show....June 149
Pump has sliding displacement chambers....Oct. 104
Pump, radial piston....Dec. 95
Resins, low pressure (abstract)....June 125
Rubber linings protect steel against corrosion and abrasion....Jan. 142
Silicone rubber....Feb. 146
Supersonic examination of materials....Oct. 113
Reference book sheet....Oct. 169
Switch, motor control....Dec. 98
Urea and melamine resin products....Aug. 140

MECHANICAL MOVEMENTS AND MECHANISMS

Atmosphere generator, automatic....June 94
Ball type friction ratchet meters feed....Mar. 98
Clock, thermal....Dec. 100
Clutch, power press....Dec. 100
Compressor, refrigerator....Oct. 90
Condenser discharge reflects r.p.m.....Feb. 103
Cone type speed transmission....Mar. 95
Design of parts for conditions of variable stress....Jan. 118
Dividing machine, automatic....June 90
Dovetailer, automatic....Aug. 96
Earthmover, hydraulically controlled....Aug. 90
Electrical indicating instruments....Jan. 123
Electrical, mechanical and fluid variable speed transmissions....pt. I, Oct. 126, pt. II, Nov. 128
Electric hand tool....Oct. 96
Examples of various welding designs and techniques....June 130
Fork truck, articulated....Dec. 92
Four-wheel suspension for light car....Jan. 103
Gaging, electro-mechanical....July 102
Generator, small electric....Dec. 98
Helicopter, twin engined....Dec. 88
Hot air engine....Oct. 102
Hydraulic-electric system operates auto windows, seat and top....June 100
Hydraulic tailgate elevator....June 103
Injection molding machine....Dec. 96
Knitting machine, warp....May 90
Lawnmower, sheet metal....Nov. 102
1947 Machine tool show....(special section Sept.)
Methods for maintaining positions and dimensions of parts during brazing....Aug. 120
Methods for placing brazing materials, and vent locations....July 124
1948 Packard....Nov. 90
Pneumatic hammer has rotary valve controls....Nov. 94
Pump has sliding displacement chambers....Oct. 104
Rotors clean compressed air through centrifugal force....June 97
Speed-gear regulated through variable throw crank....Aug. 105
Tap flute grinder....June 98
Thermometer element design....Apr. 98
Tone stylus....Nov. 99
Trolley conveyor system components....Dec. 116
Truck suspension....Oct. 105
Turn milling machine....Oct. 98
Twister, 2-for-1 (abstract)....May 128
Typical applications of the bellows unit in control assemblies....May 116
Valve grinder, automatic....Nov. 100
Washer, squeeze action by hydraulic pressure....Feb. 100
Washing machine, automatic....Nov. 96
Wheels, castored....Aug. 95

MECHANICAL PARTS AND DRIVES

Air ducts of nonmetallic materials....Oct. 138
Applying electrified drives to conveyors....Oct. 84
Ball and roller bearing seals....Apr. 103
Bellows-type heat exchanger for compactness and efficiency....June 121
Belt-gear drive, dual....June 96
Boxes with square and round corners, designs for sheet metal....pt. I, Feb. 122, pt. II, March 122, pt. III, Apr. 148
Brinelling of ball and roller bearings (abstract)....Dec. 127
Cam design and analysis for high speeds and torques....Mar. 84
Clock, thermal....Dec. 100
Clutch, power press....Dec. 100
Coach-baggage car, aluminum....July 104
Compressor, refrigerator....Oct. 90
Cone type speed transmission....Mar. 95
Constant-velocity universal joints....July 120
Diesel engine, air cooled....Mar. 88
Diesel engine, air cooled....Apr. 101
Electrical, mechanical and fluid variable speed transmissions....pt. I, Oct. 126, pt. II, Nov. 128
Electric hand tool....Oct. 96
Electronically controlled tracing head....June 102
External floating friction shoes....Oct. 119
External friction blocks and shoes....Dec. 134
Fastener, one-piece spring steel snap....Apr. 93
Fastener, quick-removable....May 98
Fasteners cut assembly time....July 96
Flame-cut disk flywheels....Nov. 141
Forces and stresses in clutch and brake bands....May 152
Fork truck, articulated....Dec. 92
Gasket, factors that affect choosing a (abstract)....Feb. 134
Helicopter, twin engined....Dec. 88
Hydraulic coupling applied to electric motor....Mar. 96
Hydraulic O-ring packing for sealing cylinders and pistons....July 163
Internal floating friction shoes....July 106
Internal friction blocks and shoes....Mar. 133
Comment....July 161

Knitting machine, warp ..... May 90
1947 Machine tool show ..... (special section Sept.)
Magnetic template tracing ..... Feb. 92
Metal stampings in small lots at reasonable fabrication cost ..... June 105
Nailable flooring, spaced channels form ..... Oct. 101
1948 Packard ..... Nov. 90

Engine, air cooled diesel ..... Mar. 88
Engine, air cooled diesel ..... Apr. 101
Engine, air cooled, single cylinder ..... May 100
Engine, hot air ..... Oct. 102
Engine lathe with hydraulic control ..... May 94
Engine, lightweight industrial ..... Mar. 101
Engine, low hp. gasoline ..... Jan. 104
Engine, marine ..... May 100
Engine, world's largest reciprocating aircraft ..... Jan. 152
Fastener, one-piece spring steel snap ..... Apr. 93
Fastener, quick-removable ..... May 98
Fasteners cut essembly time ..... July 96
Fiberglas-plastic in compound curve shapes ..... Jan. 104
Fork truck, articulated ..... Dec. 92
Forming press, hydraulic ..... Nov. 92
Four-wheel suspension for light car, independent ..... Jan. 103
Freezer compartment, aluminum ..... Aug. 104
Gaging, electro-mechanical ..... July 102
Garden tractor ..... Mar. 100
Generator, small electric ..... Dec. 98
Hand tool, electric ..... Oct. 96
Heat gun ..... May 101
Heater, gas room ..... Feb. 104
Heater, portable ..... Jan. 106
Heater, two-stage steam ..... July 99
Heating plant, electric home ..... May 96
Heating unit, domestic ..... Apr. 102
Helicopter, twin engined ..... Dec. 88
Hydraulic analyzer ..... Apr. 96
Hydraulic-electric system operates auto windows, seat and top ..... June 100
Hydraulic tailgate elevator ..... June 103
Hydraulic coupling applied to electric motor ..... Mar. 96
Hydraulic gaging units check frame alignment ..... Jan. 96
Ignition for gas ranges, automatic ..... June 104
Industrial gun breaks up clinker rings ..... Jan. 103
Injection molding machine ..... Dec. 96
Instrument bearings (abstract) ..... Feb. 131
Knitting machine, warp ..... May 90
Lawnmower, sheet metal ..... Nov. 102
Lift truck, electric ..... May 102
Magnesium die casting for radio chassis ..... Mar. 99
Magnesium furniture ..... Jan. 105
Magnesium hand truck ..... Mar. 102
Correction ..... June 151
Magnetic template tracing increases accuracy of shape-cutting ..... Feb. 92
Medical instrument, gasometer ..... Oct. 100
Motor, axial air-gap ..... Oct. 96
Nailable flooring, spaced channels form ..... Oct. 101
Neon tube is recessed in casting ..... Nov. 94
1948 Packard ..... Nov. 90
Paper dictation records ..... Feb. 106
Pebble heat exchanger for high temperature gas heating ..... Apr. 99
Percolator handle design ..... Feb. 105
Photoelectric cell, lead sulphide ..... Mar. 100
Pipe unions made from stampings ..... Jan. 102
Plastic-sealed thermostats in electric comforter ..... May 99
Pneumatic hammer has rotary valve controls ..... Nov. 94
Projection welding for roller skate assembly ..... July 95
Pump has sliding displacement chambers ..... Oct. 104
Pump, radial piston ..... Dec. 95
Pump, self-priming ..... July 100
Railroad car design, refrigerator ..... Apr. 90
Railroad sound system ..... Oct. 93
Refrigerator, German absorption type ..... Oct. 146
Rotor-impeller makes simple pump, combined ..... Mar. 91
Rotors clean compressed air through centrifugal force ..... June 97
Servomechanism, lightweight ..... Aug. 102
Sheet metal stairs ..... Jan. 106
Speed gear regulated through variable throw crank ..... Aug. 105
Split ball bearings cut assembly time ..... Oct. 96
Surface grinder ..... May 101
Surface roughness instrument ..... Nov. 100
Switch, motor control ..... Dec. 98
Tap flute grinder ..... June 98
Telescoping lift fork truck ..... Feb. 104
Thermometer element design ..... Apr. 98
Threads made by stamping process ..... Feb. 97
Tire carrier ..... Jan. 105
Tone stylus ..... Nov. 99
Towing tractor ..... Mar. 102
Correction ..... June 151
Tracing head, electronically controlled ..... June 102
Trailer wheel, continuous web ..... Mar. 100
Train of tomorrow ..... Aug. 98
Truck refrigeration system ..... Jan. 98
Truck suspension ..... Oct. 105
Tuned air columns induce resonance for fatigue testing ..... Feb. 98
Turn milling machine ..... Oct. 98
Twin engine power plant ..... Jan. 100
Vacuum cleaner, bagless ..... May 102
Vacuum tubes reduce oscilloscope size, miniature ..... Mar. 97
Valve grinder, automatic ..... Nov. 100
Variable speed transmission, radial pump ..... Oct. 94
Vehicle, foreign automotive ..... Dec. 100
Vibration exciter and calibrator, electromagnetic ..... July 92
Washer, squeeze action by hydraulic pressure ..... Feb. 100
Washing machine, automatic ..... Nov. 96
Welded steel construction for large motors ..... June 93
Welded steel tubing improved truck body construction ..... Feb. 99
Welder designed for production line use, spot ..... Apr. 100
Welder, self-propelled arc ..... Mar. 101
Welder with arc booster ..... May 101
Wheels, castered ..... Aug. 95
Work table hydraulically positioned ..... Mar. 94

PRODUCTION PROCESSES

Assembly of aluminum parts by furnace and dip brazing methods ..... Feb. 115
Basic requirements of materials for induction hardening ..... May 110
Beryllium copper formed parts—advantages of fixture heat-treatment ..... Feb. 118
Dielectric heating ..... Oct. 158
Electroless plating on metals by chemical reduction ..... Oct. 150
Examples of various welding designs and techniques ..... June 130
Fasteners cut assembly time ..... July 96
Flame-cut disk flywheels ..... Nov. 141
Forming press, hydraulic ..... Nov. 92
Freezer compartment, aluminum ..... Aug. 104
Gas heating, high temperature ..... Apr. 99
How low temperature treatments affect properties of steels ..... Dec. 81
Improved engineering properties of parts made from iron powders ..... Aug. 115
Lawnmower, sheet metal ..... Nov. 102
Magnetic template tracing ..... Feb. 92
Malleable iron castings ..... June 110
Metal stampings in small lots at reasonable fabrication cost ..... June 105
Methods for maintaining positions and dimensions of parts during brazing ..... Aug. 120
Methods for placing brazing materials and vent locations ..... July 124
Oxyacetylene pressure welding as it affects design ..... Mar. 117
Pipe unions made from stamping ..... Jan. 102
Powder metallurgy report, German ..... Nov. 116
Projection welding for roller skate assembly ..... July 95
Projection welding of low carbon and stainless steel sheet ..... Mar. 124
Proper surface preparations assure durable finishes ..... Mar. 153
Shaping of die forged parts (abstract) ..... Nov. 130
Silver brazing of cast iron ..... Oct. 128
Small zinc alloy die castings ..... Nov. 86
Soldered ceramic-to-metal seals ..... Dec. 154
Spot welded aluminum components designed for repeated loads ..... Dec. 158
Spot-welding aluminum lap joints designed for repeated loads ..... Nov. 112
Steel casting design details affect quality of product ..... Aug. 86
Temperature chart for soldering, brazing and welding processes ..... Oct. 171
Threads made by stamping process ..... Feb. 97
Tooth deflection and scuffing in design of highly loaded gears ..... Feb. 141
Turn milling machine ..... Oct. 98
Urea and melamine resin products ..... Aug. 140
Uses of shot peening other than for fatigue durability ..... Aug. 122
Welded steel tubing improves truck construction ..... Feb. 99
Welding tools (abstract) ..... Oct. 136

REFERENCE BOOK SHEETS

Application tables to guide in the selection of materials ..... pt. I, Nov. 165, pt. II, Dec. 165
Chart of symptoms, causes and remedies of trouble in oil hydraulic systems ..... Feb. 165
Chart for determining the section modulus of annular sections ..... Mar. 167
Charts for circular diaphragm design ..... Jan. 167
Charts for designing copper coils ..... June 163
Graph for determining lug shear-out distance ..... May 157
Internal pressure chart for round stainless steel tubing ..... Sept. 177
Nomogram for energy—voltage—capacitance relationship ..... Sept. 179
Nomogram for polar moment of inertia by suspension ..... July 177
Scale diagram for relations of thread dimensions ..... July 175
Supersonic wave penetration into materials ..... Oct. 169
Temperature chart for soldering, brazing and welding processes ..... Oct. 171
Torsional deflection of hollow shafts ..... Apr. 171
Comment ..... Aug. 160
Vector analysis of epicyclic gear trains ..... Aug. 171

RESEARCH AND TEST METHODS

Analysis of motor noise and how it can be minimized ..... Dec. 110
Camera takes 200,000 pictures a second ..... May 155
Charpy and Izod testing ..... pt. I, Oct. 106, pt. II, Nov. 159
Climatic hangar for all-weather testing ..... Oct. 147
Commercial research by universities threatens science and education ..... June 81
Comment ..... Sept. 174
Comment ..... Oct. 156
Damping characteristics of dashpots ..... Nov. 138
Effects of pressure cycling on physical properties of materials ..... Aug. 81
Fatigue strength of steel parts ..... Oct. 144
Fatigue testing, tuned air columns induce resonance for ..... Feb. 98
Finding new products to fill expanded plants ..... July 85
Five theories of static failure explained and compared ..... June 157
Fluid flow friction factors for pipes, valves and fittings ..... July 89
Comment ..... Dec. 152
Friction loss and heat balane in viscous flow between plates ..... Aug. 146
Hardness and hardenability in carbon and alloy steels ..... July 141
High temperature alloys tested at super-high-speed ..... Oct. 154
How low temperature treatments affect properties of steel ..... Dec. 81
Ice calorimeter in high temperature research ..... Oct. 155
Improved engineering properties of parts made from iron powders ..... Aug. 115
Improved mechanical test methods for better plastics design ..... Jan. 113
Laminar to turbulent flow transition studied ..... Sept. 167
Lead base babbitt alloys ..... pt. I, May 118, pt. II, June 138
Pyrometer for gas turbines and jet engines ..... May 140
Recording magnetic detector locates flaws in ferrous metals ..... Apr. 110
Research bringing quieter aircraft ..... May 135
Research, industrial (abstract) ..... Aug. 131
Research in small companies ..... May 134
Research in water-cooled gas turbines (abstract) ..... May 127
Specifying hydraulic fluids ..... Oct. 122
Strain gage and oscilloscope combined in hydraulic analyzer ..... Apr. 96
Strain measuring devices and their range of utility ..... Jan. 107

Strength and clamping force of bolts..Dec. 130
Supersonic examination of materials...Oct. 113
Reference book sheet.....Oct. 169
Supersonic waves, water channel technique simulates .....Oct. 125
Uses of shot peening other than for fatigue durability .....Aug. 122
Vibration exciter and calibrator, electromagnetic .....July 92
Vibration testing technique and its use in improving designs .....July 115

REVIEWS OF BOOKS

Advanced mechanics of materials.....Feb. 152
Aerodynamics .....Feb. 151
Aircraft drafting .....May 146
Aircraft layout and detail design.....Apr. 169
Aluminum alloys and mill products data book .....May 145
An introduction to electronics.....Jan. 165
Analysis and design of translator chains..Aug. 151
Applied descriptive geometry.....Feb. 152
Applied engineering mechanics.....Aug. 151
Applied mathematics for engineers and physicists .....Oct. 167
A.S.T.M. standards .....Nov. 163
A.S.T.M. standards on petroleum products and lubricants .....June 161
Basic engineering drawing.....Dec. 162
Basic mathematics for technical courses..June 161
Blueprint reading .....Feb. 152
Chemistry and technology of plastics...Oct. 167
Chemistry of commercial plastics.....July 173
Circuit analysis by laboratory methods..Mar. 169
College algebra .....Feb. 151
College physics .....Dec. 162
Corrosion of metals.....May 145
Descriptive geometry .....Aug. 151
Design of molded articles.....June 161
Designing with magnesium.....May 146
Differential and integral calculus.....Feb. 152
Direct and alternating currents.....Mar. 169
Directory of member institutions and review of current research, 1947.....Oct. 167
Directory of steel foundries in the United States and Canada.....Feb. 151
Electric machinery .....May 145
Electric power equipment.....May 146
Electrical engineering .....Feb. 152
Electronic control handbook.....Feb. 152
Electronic engineering master index..June 161
Electronics for industry.....Aug. 151
Elementary fluid mechanics.....Dec. 162
Elementary heat power.....July 173
Elements of mechanism.....July 173
Examination of industrial measurement..June 161
Experimental plastics and synthetic resins .....May 146
Experimental stress analysis No. 1....May 145
Experimental stress analysis No. 2.....Nov. 163
Ferrous metallurgical design.....Dec. 162
Fluorescent lighting .....Feb. 152
Freehand sketching for engineers.....May 146
Fuels and fuel burners.....Mar. 169
Fundamentals of industrial electronics circuits .....July 173
Fundamentals of plastics.....Nov. 163
Geometry of engineering drawing.....May 145
Guide to the literature of mathematics and physics .....Nov. 163
Heating and air conditioning.....Mar. 169
Heat-treating aluminum alloys.....Mar. 169
Human factors in air transport design..Jan. 165
Inductance calculations .....Apr. 169
Induction heating .....Jan. 165
Industrial carbon .....Feb. 151
Industrial production illustration.....June 161
Injection molding of plastics.....Dec. 162
Lessons in arc welding.....Dec. 162
Low-pressure laminating of plastics..Sept. 161
Machine design .....Jan. 165
Machine design .....May 145
Machining aluminum alloys.....Jan. 165
Magnesium .....Feb. 151
Manual for heat-treating services.....May 146
Manufacturing processes .....Sept. 161
Mathematical aids for engineers.....July 173
Mathematical methods of statistics....Sept. 161
Mathematics for engineers.....Apr. 169
Mechanical measurements by electrical methods .....June 161
Milling with carbides.....Aug. 151
Modern plastics encyclopedia.....Oct. 167
Panel heating and cooling analysis....Aug. 151
Plastics business .....May 146
Plastics handbook for product engineers..Apr. 169
Plastics industry .....Feb. 151
Plastics molds .....May 145
Practical designs for drilling, milling and tapping tools .....Jan. 165
Precision hole location.....July 173
Preparation and use of visual aids.....Aug. 151
Principles of radar.....Mar. 169
Quartz crystals for electrical circuits..Apr. 169
Radiography in modern industry.....Oct. 167
Resistance of materials.....Oct. 167
Resistance welding manual.....Oct. 167
Servomechanism fundamentals .....Nov. 163
Shot peening .....Mar. 169
Simplified punch and diemaking.....Sept. 161
Six place tables.....Dec. 162
Technology of adhesives.....Sept. 161
Theory of functions of real variables....May 146
Trane air conditioning manual.....Jan. 165
Trigonometry refresher for technical men .....Apr. 169
Valve gear design.....Sept. 161
Wave propagation in periodic structures..Feb. 151
Welding aluminum and aluminum alloys..Apr. 169
Welding symbols .....Sept. 161

STANDARDS AND STANDARDIZATION

Basic standard drafting practice guarantees correct interpretation.....July 137
Diamond die drilling method developed by Bureau of Standards.....July 153
Diaphragm control valves conform to preferred numbers .....Apr. 85
Engineering and manufacturing standards .....Nov. 81
Hydraulic brake fluid standard, SAE...May 143
Involute spline standard, ASA revision..May 142
Limits and fits standards by ASA....Oct. 154
Motor standards, fractional hp. (abstract) .....Jan. 140
New dimension standards for fractional hp. motors .....Jan. 91
Standards for spark plugs urged by SAE committee .....Apr. 160

SURFACE FINISHES AND COATINGS

Analysis of heat resistant paints.....Dec. 85
Anodizing of magnesium alloys.....May 122
Coating metals, lead, zinc, tin (abstract) Oct. 135
Common industrial electroplates ..... pt. I, Mar. 139, pt. II, Apr. 155
Electroless plating on metals by chemical reduction .....Oct. 150
Electroplating process produces better finish June 144
Luminous materials.....July 144
Proper surface preparations assure durable finishes .....Mar. 153
Treatments for metal surfaces prior to painting .....Aug. 128

TECHNICAL ABSTRACTS

A.c. adjustable speed drive.....Dec. 128
Airborne magnetic detector.....Aug. 134
Aluminum-silicon alloys .....June 126
Aluminum surface hardening.....July 133
Brass die castings.....May 129
Brinelling of ball and roller bearings....Dec. 127
Castings and weldings.....Mar. 132
Cathode-ray compass .....Aug. 132
Cellulosics, low temperature impact strength July 136
Ceramic coatings, high temperature....Nov. 135
Ceramic parts, designing small.....July 131
Chromium-vanadium carburizing steel..Apr. 147
Coating metals, lead, zinc, tin.....Oct. 135
Cold working of copper-aluminum alloy..June 129
Electronic counters .....Mar. 131
Electronic drives .....Aug. 135
Finishes for metal containers.....Mar. 130
Gas compressors .....Aug. 136
Gasket, factors that affect choosing a..Feb. 134
Hardness testing with a ball trace....Dec. 124
Heat sealing thermoplastics.....Mar. 130
Hoist lowering system, a.c.....July 134
Hydraulic systems, lightweight high pressure .....Oct. 133
Instrument bearings .....Feb. 131
Low pressure molding.....Dec. 126
Lubrication of bearings.....May 125
Magnet wire properties, comparison of..Apr. 145
Magnets, application and design factors in a.c. .....June 126
Manometers, low pressure.....Mar. 127
Meter, positive displacement.....Feb. 130
Microwave power generator.....Mar. 129
Microwaves for industrial heating.....Jan. 137
Motor standards, fractional hp.....Jan. 140
Motor standards revisions, NEMA....Sept. 173
Nylon, elastic .....Feb. 132
Paints, anti-fouling .....Feb. 133
Plastic bonded light alloys.....Mar. 128
Plastic insulation, weathering.....Feb. 132
Plastics assembly .....Mar. 128
Pressure-welding stainless steel rings...Apr. 147
Research, industrial .....Aug. 131
Research in water-cooled gas turbines..May 127
Resins, low pressure.....June 125
Results of compative tests of crankshafts .....Nov. 135
Shaping of die forged parts.....Nov. 130
Steel for tubular products.....Oct. 137
Synthetic rubber in tires.....Mar. 131
Testing bolts for strength and ductility..Mar. 129
Thermoplastic laminates .....Oct. 134
Tin coatings on mild steel.....Dec. 126
Tool, die and special steels.....Jan. 141
Totally-inclosed high temperature motors use silicones .....Nov. 134
Twister, 2 for-1 .....May 128
Vanadium in gray iron castings.....Mar. 132
Welding tools .....Oct. 136

AUTHORS' INDEX

ALLEN, Robert E.—Hydraulic O-ring packing for sealing cylinders and pistons July 163
AVONDOGLIO, Leo—Vector analysis of epicyclic gear trains.....Aug. 171

BARIFFI, Herbert F.—Nomogram for polar moment of inertia by suspension...July 177
BENNETT, J. T.—Composite dimensioning Oct. 141
BIGELOW, M. H.—Urea and melamine resin products .....Aug. 140
BLACK, George—Anodizing of magnesium alloys .....May 122
Analysis of heat resistant paints..Dec. 85
BOYER, G. D.—Popular types of steels..Jan. 81
BURBY, James D.—Acceleration of inertia loads with a varying torque.....Dec. 102

CARLIN, Benson—Supersonic examination of materials .....Oct. 113
Supersonic wave penetration into materials .....Oct. 169
CARLSON, Harold C. R.—Stainless steels for springs ..... pt. I, May 103, pt. II, June 153
CASWELL, J. Selwyn—Design of parts for conditions of variable stress.....Jan. 118
CUTTEN, M. E.—Integral hp. single-phase motors .....Apr. 150

DAVIS, Lincoln K.—Some things to check to assure good mechanical design.....Mar. 156
DAWSON, L H.—Luminous materials..July 144
DeLOLLIS, Nicholas J.—Industrial adhesives pt. I, Nov. 117, pt. II, Dec 137
DICKIE, John A.—Vibration testing technique and its use in improving designs July 115

FOX, Zola—Application tables to guide in the selection of materials..... pt. I, Nov. 165, pt. II, Dec. 165
FRICK, Harold—Silver brazing of cast iron Oct. 128

GARTRELL, R. D.—Purpose and organization of a development department..Apr. 81
GEORGE, Henry P.—Lead base babbitt alloys.....pt. I, May 118, pt. II, June 138
GILLETT, H. W.—How low temperature treatments affect properties of steels.Dec. 81
GOETZEL, Claus G.—Improved engineering properties of parts made from iron powders .....Aug. 115
GROVER, Horace J.—Spot-welding aluminum lap joints designed for repeated loads .....Nov. 112
Spot-welded aluminum components designed for repeated loads.....Dec. 158
GWYTHER, R. E.—Proper surface preparations assure durable finishes.....Mar. 153

HARDING, Watson G.—Air ducts of nonmetallic materials .....Oct. 138
HASTINGS, C. H.—Recording magnetic detector locates flaws in ferrous metals Apr. 110
HENDERSON, J. G.—Fine silver welded tubing .....June 160
HERWALD, S. W.—Stabilizing servomechanisms for optimum overall performance June 132
HICKSON, E. F.—Treatments for metal surfaces prior to painting.....Aug. 128
HINKLE, R. T.—Generation of the conic sections with machine tools.....Aug. 162

HITCHCOCK, Richard C.—Charts for designing copper coils.....June 163
Temperature chart for soldering, brazing, and welding processes.....Oct. 171
HOLLIDAY, T. B.—Electric motors for aircraft .....Jan. 86
Relay design for compactness.....Dec. 118
HOLOWENKO, A. R.—Strength of ribbed beams .....Dec. 122

IMMEL, R. B.—Electrical contact operation Feb. 107
IRISH, E. M.—Silicone rubber.....Feb. 146
IRWIN, Bruce A.—Diaphragm control valves conform to preferred numbers.....Apr. 85

JENNY, A. L.—Soldered ceramic-to-metal seals .....Dec. 154
JOHNSON, Philip O.—Fatigue strength of steel parts .....Oct. 144
JONES, B. W.—Characteristics of silver and copper for use as electrical contacts Nov. 104
JONES, J. E.—Flexible control systems for tandem motor operation.....July 167

KIBARDIN, Victor M.—Torsional deflection of hollow shafts .....Apr. 171
Comment .....Aug. 160
KIPER, Frank—Steel casting design details affect quality of product.....Aug. 86
KORN, Arthur H.—Basic equations for fluid motion and pressure drop in pipes..May 85
KUBLI, R. A.—Oxyacetylene pressure welding as it affects design.....Mar. 117
KUPIEC, Harry P.—Remote hydraulic control .....Nov. 136

LANSING, James H.—Malleable iron castings .....June 110
LARRI, G.—Chart for determining the section modulus of annular sections..Mar. 167
LAUDERDALE, Russell H.—Basic requirements of materials for induction hardening .....May 110
LENZEN, Kenneth H.—Strength and clamping force of bolts .....Dec. 130
LINDNER, P. J.—Optimum hydraulic pressure for minimum cylinder diameter June 119
Comment .....Nov. 152
LIPSON, Charles—Five theories of static failure explained and compared....June 157
Fatigue strength of steel parts....Oct. 144
LITTLEJOHN, H. F., Jr.—Special control circuits for motors may aid machine performance .....Aug. 106
LOFGREN, Kenneth E.—Zero-backlash arrangements for gear trains and drives July 150

McFARLAND, Forest R.—Tooth deflection and scuffing in design of highly loaded gears .....Feb. 141
McGOWAN, Wayne A.—Graph for determining lug sheer-out distance.....May 157
McMASTER, Robert C.—Spot-welding aluminum lap joints designed for repeated loads .....Nov. 112
Spot-welded aluminum components designed for repeated loads .....Dec. 158
MATTHEW, Morton P.—Cardboard mockups Jan. 120
MATTHEW, W. L.—Engineering and manufacturing standards .....Nov. 81
MIKULAK, M. J.—Metal stampings in small lots at reasonable fabrication cost..June 105
MILLS, Wallace C.—Sheet metal boxes with square and round corners .....
pt. I, Feb. 122, pt. II, Mar. 122, pt. III, Apr. 148
MOORE, R. W.—Dual fields in d.c. motor provide simple 8 to 1 speed control..Aug. 166
MOORHEAD, J. O.—Use of thermostatic bimetal .....Nov. 123
MURRAY, J. A.—Urea and melamine resin products .....Aug. 140

OCHIEANO, Mario L.—Projection welding of low carbon and stainless steel sheet Mar. 124
ORDINANZ, William O.—Analysis of motor noise and how it can be minimized..Dec. 110
OSTLIND, Benjamin—Internal pressure chart for round stainless steel tubing Sept. 177

PARACHINI, L. F.—Electrical indicating instruments .....Jan. 123
PEARSON, Henry F.—Obtaining brilliance with acrylic resins .....May 147
PETERSEN, A. H.—Assembly of aluminum parts by furnace and dip brazing methods .....Feb. 115
PETERSON, John B.—Damping characteristics of dashpots .....Nov. 138
PORTER, W. C.—Treatments for metal surfaces prior to painting .....Aug. 128
POULTER, T. C.—Effects of pressure cycling on physical properties of materials.Aug. 81
PRITCHARD, H. K.—Useful transformer connections for powering industrial machinery .....Mar. 103
PROUTY, P. W.—Common industrial electroplates .....
pt. I, Mar. 139, pt. II, Apr. 155

QUACKENBOS, H. M., Jr.—Improved mechanical test methods for better plastics design .....Jan. 113

RASMUSSEN, A. C.—Internal friction blocks and shoes .....Mar. 133
Comment .....July 161
Forces and stresses in clutch and brake bands .....May 152
Internal floating friction shoes.....July 106
External floating friction shoes....Oct. 119
External friction blocks and shoes..Dec. 134
RECTOR, B. E.—Dielectric heating....Oct. 158
REEHL, E. A.—Specifying hydraulic fluids Oct. 122
REIBEL, Sidney—Trolley conveyors....Feb. 124
Applying electrified drives to conveyors Oct. 84
Typical trolley conveyor system components .....Dec. 116
RICHE, A. L.—Precision snap-acting switches .....
pt. I, Feb. 135, pt. II, Mar. 112
RIEBER, William K.—Design patent protection .....Oct. 81
ROGERS, Record—Some simple electrical analogies .....July 126
ROWROTHAM, George E.—Basic standard drafting practice guarantees correct interpretation .....July 137

SAKS, Joseph—Small zinc alloy die castings Nov. 86
SANDERS, Howard—Analysis of heat resistant paints .....Dec. 85
SANDERS, Milton A.—Cam design and analysis or high speeds and torques..Mar. 84
SCHMIDT, Kenneth W.—Designing for economy of material, tooling and labor.Jan. 132
SCHWITTER, C. M.—Charpy and Izod testing .....pt. I, Oct. 106, pt. II, Nov. 159
SHEERAN, William M.—Professional advantages offered by technical societies Mar. 81
SKEEHAN, John L.—Scale diagram for relations of thread dimensions.....July 175
SMITH, Karl F.—Strain measuring devices and their range of utility.....Jan. 107
SPOTTS, Merhyle F.—Dimensions and tolerances .....Jan. 160
Recommended practices for dimensioning and toleranceing .....Feb. 88
STAHL, E. P.—Ball and roller bearing seals .....Apr. 103
STEINBACHER, F. R.—Experimental stress analysis .....July 172
STIRRAT, J. Rae—Silicone rubber...Feb. 146
STREETER, V. L.—Fluid flow friction factors for pipes, valves and fittings..July 89
Comment .....Dec. 152
STURGES, E. B.—Constant-velocity universal joints .....July 120
SUTTON, George P.—Charts for circular diaphragm design .....Jan. 167

TEAGUE, Walter Dorwin—How the industrial designer works with the engineer May 81
TEICHMANN, O. E.—Friction loss and heat balance in viscous flow between plates Aug. 116
TOULMIN, H. A. Jr.—Case histories in patent law, No. 7, Jan. 164.....
No. 8, Apr. 158, No. 9, May 115, No. 10, July 123, No. 11, Aug. 127
Commercial research by universities threatens science education .....June 81
Comment .....Sept. 174
Comment .....Oct. 156
TRUE, O. S.—Rubber linings protect steel corrosion and abrasion.....Jan. 142

WHITESELL, R. O.—Magnesium copper sulphide rectifiers .....June 84
WIESCHHAUS, L. J.—Uses of shot peening other than for fatigue durability...Aug. 122
WILSON, Warren E.—Analysis of turbine pumps .....Oct. 163
YELTON, Everett B.—High heat and corrosion resistant plastic .....Nov. 154

YOGERST, W. M.—Controlling speed of fractional hp. motors .....May 130
Centrifugal governor speed control for small motors .....Aug. 138

ZICKRICK, L. L.—Characteristics of silver and copper for use as electrical contacts Nov. 104
ZIEBOLD, E. H.—Bellows-type heat exchanger for compactness and efficiency June 121
